Pancakeswap

FEATURES

Automated Market Making, Liquidity Pool, Farming, Staking, Lottery, NFTs, IFOs, DAO, Yield, Betting

WORKING MECHANISM

Decentralized exchange with the facility of an Automated market maker with a liquidity pool available for different BSC tokens and enabling swapping mechanism with ability to earn rewards on different stakes in its the native currency.

BENEFITS

BSC Token Swaps, Liquidity Staking, Farming, Yield & Rewards, Automated market maker.

Swap

Instantly swap crypto tokens: no registration or account needed.

Earn

Earn CAKE and other tokens for free with super high interest rates.

Win

PancakeSwap makes making money fun.

Pancakeswap Clone Development Tailored to your needs

PancakeSwap is a Decentralized Exchange with Automated Market Making that allows you to Swap and tokens without a central link, which keeps your tokens stored all the time. Built on smart automated contracts delivered to Binance Smart Chain, a blockchain platform managed by crypto exchange Binance.

Although Binance operates a moderate exchange service, it does not control or use PancakeSwap-built by anonymous developers.

WHY MOBILOITTE FOR YOUR PANCAKESWAP CLONE DEVELOPMENT?

Our White label Pancakeswap Clone software helps to build your decentralized exchange platform built into the Binance smart chain network according to your needs.

By using your White-label PancakeSwap Clone Software, you can get a 100% customized solution that ensures cost-effectiveness with advanced features similar to PancakeSwap. It gives you a complete DeFi exchange infrastructure like PancakeSwap with all the technical and security features integrated into it.

KEY FEATURES OF YOUR PANCAKESWAP CLONE

- **AMM - Automated Market Making**
 - **Swapping Tokens (BEP-20) / Native Token**
 - **NFTs Provision**
 - **Swap Mechanism**
 - **PancakeSwap Analytics**
 - **Liquidity API's Integrated**
 - **Integrated high-level Security API's**
 - **Rapid Speed Audits & Rewards per Block: 25 CAKE (Fully Customizable)**
 - **Initial Farm Offering (IFO) support**
 - **Completely Decentralized Exchange Solutions**
- **Smart Contract Implementation**
 - **Supported multiple Cryptocurrency Wallets**
 - **Integrated Payment Gateways**
 - **Blockchain-powered with Consensus Mechanism**
 - **Voting system**
 - **Bug Bounty reward system**
 - **Supported Stablecoins such as, USDT, BUSD, USDC, LINK, TWT, DAI and more Cryptocurrencies.**
 - **Transaction History**
 - **Lottery schemes and more.**

BENEFITS

Trade & Swap: BEP20 Tokens
BEP20 tokens can be traded and swapped
Connect with all types of BSC wallets:
All types of BSC wallets can be connected
LP Tokens: Earn PancakeSwap native token by staking LP tokens
Stake and Earn crypto tokens: Tokens can be staked to earn more
Get reward by staking: Rewards can be earned by staking.
Dynamic token pairing and creation:
Multiple tokens can be paired with each other

P.S: Our teams are quick to adapt and help give wings to your vision and creativity by adding more features as needed.

Please find attached some documents for your quick review to showcase our abilities. Happy to walk you through them at your convenience.
