

## OUR MANTRA

Experience : Excellence : Exuberance

## EXPERTISE

Blockchain | Metaverse | Games  
AI | IoT | Mobile | Web | Cloud

## EXPERIENCE

15+ Years Experience  
1K+ Professional Employees  
5000+ Project Delivered

## CERTIFICATIONS

NASSCOM, FICCI, NSIC, MSME, ISO,  
UPWORK, DRUPAL, NeGD, LINUX

## GLOBAL PRESENCE

USA, U.K, SG, India

## NFT TYPES

Crypto Collectibles | Gaming | Art |  
Music | Trading Marketplace | Real  
Estate | Metaverse | Ticketing |  
Sports | Voting | Accessories |  
Brands | Medical Records | Patents  
| Domain Names | Infrastructure  
Development

## WHAT IS NFT MARKETPLACE?

NFT Marketplace is simply an online marketplace where you can buy, sell or trade NFT tokens. An NFT marketplace is a platform where artists can create and sell digital art. It provides creators with a direct way to market their non-fungible assets such as artwork, and customers can purchase these assets using cryptocurrency.

## MARKETPLACE CLONES

Nifty Gateway  
Makersplace  
Top Shot  
Larva Labs  
Rarible  
KnownOrigin  
SuperRare  
OpenSea

## WHY MOBILOITTE?

We at Mobiloitte are at the forefront of Blockchain and NFT marketplace development. We offer NFT marketplaces in Solana, Ethereum, Polkadot, Polygon, and Binance to name a few. Large, multidisciplinary experienced teams in various Blockchain & Front-end technologies, Storage platforms, and NFT standards, covering all the bases for a successful project launch.

The platform is secure so that instances of loss of NFT transactions and double-spending are prevented.

Users in the platform can view the history of transactions of every NFT item available in it.

Developing an NFT marketplace means building a decentralized platform where users can trade assets freely and not depend on traditional financial institutions, regulators, etc.
